Short Block Technologies Showcase new product line at
the 2014 Miami International Boat Show

[Short Block Technologies Inc.](#) (SBT), the PWC and Jet Boat specialists, will be displaying their new line of high quality electrical parts for boats and skis, including CDI units and stators, at the [2014 Miami International Boat Show](#) on February 13-17.

The Miami International Boat Show is produced by the National Marine Manufacturers Association in Miami and is the largest boat show in the world, featuring over 3,000 boats and 2,000 exhibitors from all over the globe.

Attendees will have the opportunity to see a vast selection of nautical products from around the world, from the latest in PWCs, jet boats, sailboats and engines to cutting-edge marine electronics. The 5-day event is a once-a-year chance to compare makes and models and gear up with the latest accessories all in one place!

This year's event spans across three locations—the Miami Beach Convention Center, the New Yacht & Power Boat Show at Sea Isle Marina and Strictly Sail® at Miamarina at Bayside. Stop by the SBT booth: R50, at the Miami Beach Convention Center to receive an assortment of BlackTip Jetports giveaways, browse their display of part offerings, and meet their staff.

If you are unable to attend, follow live updates of the event on the [SBT Facebook](#) page.

SBT, located in Clearwater, FL, is the largest remanufacturer of PWC engines in the world. For free technical support, videos, PWC forums, online shopping, and much more visit www.SBT.com.

The company can be reached at 727-443-0373.
